

Houses builds with ICF

The Lincoln

Location: Orlando FL.

Year Built: 2014

Size of Project: 2560 sqf

Remarks: This a quite & optimized home with full ICF walls, electric bill in

August was \$85, including cooling. Huge saving in labor during construction. Smaller HVAC equipment. Finishes are nice, but minimalistic made the home very affordable.

Fort Worth Residence

LOCATION: Forth Worth, Texas

YEAR BUILT: 2017

SIZE OF PROJECT: 5,990 sqf.

REMARKS: ICF was employed for the envelopes, pools, retaining walls and water features. Twice efficient as

comparable homes. 350' radius wall tower. Separately metered HVAC with payment less than \$100/month.

Ecologia House

LOCATION: Quebec, Canada

YEAR BUILT: 2017

SIZE OF PROJECT: 2,900 sqf.

REMARKS: The structure of this house is built using Insulated Concrete Form. There is a green living roof, solar panels and geothermal included in this build to make the home extremely efficient. The Ecologia Montreal Home is on its way to being the first LEED Platinum certified in Quebec.

433 Plaza Real, Suite 275. Boca Ratón FL 33432
